

SUBMITTING ANIMAL FATES ONLINE

The two means of submitting animal fates to the MGBCS are through the traditional paper-based system using the Female Inventory List or through the MGBCS Internet Solutions System by using the Members Log in Facility.

This guide will cover the submission of fates through the Internet Solutions System.

In order to access the Members Log in Facility, members must first have an online account set up with the MGBCS, to do this you must have an email recorded on the MGBCS database. If you don't already have an account set up with the MGBCS please contact the MGBCS on 02 6773 2022.

The steps required in order for a member to create a batch and enter their data, once they have been allocated their Member ID and Password, are as follows:

Step 1 - Log into the Members Area of the MGBCS website (see *Fig. 1* to *Fig. 2*) and enter your Member ID and Password.

Authorisation Required

Please provide a Member I.D. and Password. Fields marked with an asterisk(*) are required, others are optional

* Member I.D.:	<input type="text"/>
* Password:	<input type="password"/>
To change your password, enter your Member I.D. and current password above and your new password below.	
New Password:	<input type="password"/>
New Password Validation:	<input type="password"/>

Step 2 - Once you have reached the Murray Grey Members Page, click on the 'Online Transactions' icon at the top of the page (see *Fig. 3*), which will take you to the Batch Screen (see *Fig. 4*).

Step 4 - For the purposes of learning the basics of this system we will start with entering the ‘Fates’ for a herd. On the “Create a New Batch” screen select the “Automatically create a batch...” option, plus the “Cow Disposal/Dates Form” option, then click on the “Create” button.

Step 5 - You will then be taken to the “Murray Grey Build Online Registration Batch” screen (see *Fig. 7*), where you can specify which animals are selected in the batch (you are also able to submit fates for males in your herd from this screen as well).

Step 6 - A list of all of the females contained on that particular Inventory will then be displayed (see *Fig. 8*), from which you will then need to select those animals that are to be fated. To do this simply remove the tick ? from any animals that are NOT to be fated, then click on “CONTINUE” button.

Step 7 - This will then leave you with a batch containing only those animals for which fates are to be submitted (see *Fig. 9*). You will then need to call up the first animal (see *Fig. 10*) and select the action required, such as “Sold for breeding”, “Culled” etc., then enter the Fate Date to be recorded, followed by the “GO” button. Should there be any problems with the information entered you will receive an error message and will need to correct that problem before the system will take you to the next record.

Please Note: Any deductions made to inventory lists after payment has been received by the MGBCS for inventory for the relevant year will not result in a credit to your account.

Helpful hints

- Ensure you have your list of animals to be fated at hand before you start, to save yourself time while online.
- If you only have a small number of animals to submit fates for, you may use the 'Manually Add Records' option for adding animals (see Fig. 6) instead of the 'Automatically Create Batch' option, which will enable you to simply add the individual animals instead of creating a larger batch of animals.
- When you are entering data always use the TAB key to move between fields and not the ENTER key.
- The format for entering dates should always be dd/mm/yy
