

Recording Matings Online

In order to access the Members Log in Facility, members must first have an online account set up with the MGBCS, to do this you must have an email recorded on the MGBCS database. If you don't already have an account set up with the MGBCS please contact the MGBCS on 02 6773 2022.

The steps required in order for a member to create a batch and enter their data, once they have been allocated their Member ID and Password, are as follows:

Step 1 - Log into the Members Area of the MGBCS website (see *Fig. 1* to *Fig. 2*) and enter your Member ID and Password.

Step 8 - When entering the mating record it is important to follow the instructions for each data field. After you enter the data in each field use the ‘TAB’ key to move onto the next field. Once you have entered all details for that calf click on the ‘GO’ button to validate the data entered (see **Fig. 11**). Should there be any errors, such as invalid dates or required fields being left empty, the screen will be displayed again with any errors highlighted in RED. Any errors will need to be corrected and you will need to re-validate the data before you can move on. Once you have entered all the data for that mating record you then enter the matings for all animals in the batch.
